

CORE OCCUPATIONAL M E D I C I N E

COVID-19 Telemedicine

What can we do?

- Immediate contact with a medical professional
- Real time assessment of symptoms
- Single assessment center for consistent care evaluation
- Accessible via client specific phone number
- Avoidance of unnecessary visits to clinics for screening

How does it work:

- Call is received by one of our Occupational Health Professionals
- OHP discusses COVID-19 concerns with employee
- OHP reviews signs and symptoms with employee
- OHP identifies employee's risk factors
- OHP coordinates appropriate further action

Video Triage:

- Direct HIPAA compliant access to telehealth system via smartphone, tablet, laptop or desktop computer
- No integration needed - up to 6 people within video conference
- Click on the secure link and immediate face- to-face nurse triage with audio and video recording to document the session
- Video and case notes available immediately

Available 24/7/365
